Description

Writing and reporting class for professional-track graduate students. We will “learn by doing” – by reporting and writing basic news stories in a professional, ethical, manner. We will explore:

- Thinking critically about what news is.
- Grasping the mechanics of gathering news and interviews.
- News writing.
- Ethics, fairness, diversity and accuracy.
- A special emphasis on “neglected” or “under-reported” stories.

Expected Objectives/Learning Outcomes

1. Demonstrate a basic competence in identifying newsworthy stories.
2. Demonstrate a basic ability to gather news, interviews.
3. Demonstrate a basic ability to report and write news in a clear, accurate, ethical manner.
4. Demonstrate attention to diversity in sources, subjects and topics.
5. Create stories suitable for publication.

Assignments:

Editorial Budget Meetings: We will have regular editorial budget meetings with your story ideas presented to your fellow reporters. You will come to class with a fresh story idea. Tell us the focus of your story idea, why it is newsworthy. Tell us in what news venue the story could possibly appear – name a publication. We will discuss the merits of your ideas: Who you might interview, what data you might get, what multimedia might be available, where you could envision the story appearing – what publication would be suitable for your story.

Six (6) Stories:

- Requirements for each of these six stories differ and are specified in the course schedule below.
- **Each** of these stories must have a multimedia element. This could be a data-driven chart, a photograph, an info-graphic, audio clip, video clip, Sound Slide or other multimedia content.
- **Each of these** stories **MUST** include a one paragraph note indicating where you think the story could/should appear. Explain why your story would fit that publication: Examples: **The Austin Chronicle, The New York Times, The Washington Post, The Texas Observer, Texas Monthly, Austin American-Statesman, The Houston Chronicle, Dallas Morning News, Williamson County Sun, etc.**
- For each story, you must interview a **minimum** of three sources; more are encouraged and welcomed.
- For each story, pay strict attention to **diversity** in terms of your sources. Interview people from different races, ethnicities, genders, etc.
- For each story, you must include, at the end of your story, the **contact information** (phone numbers and/or email addresses) of **anyone** you have interviewed.
- For each story, you are encouraged to take a photo of **anyone** you interview in person.
- Stories must be submitted **AS WORD DOCUMENTS** and via email at least **Two Hours** before the start of class on the date the story is due. Earlier the better.
- In the email **subject line**, identify the assignment. Example: **Story 1.**
- Double-space stories. Use 14-point type.
- At the top of your story please put your name, the date, the number of the story (which of the six stories it is), and a two-to-three word description of the story. Here is an example of what to put at the top of the story:

Mike Smith
Sept. 30, 2017
Story 3

ACL Music Festival

TIPS FOR DOING STORIES:

- **Send stories as Word Documents.** Attach the Word Doc to your email
- Attach photographs or provide links to any audio/video
- At the end of your story, LIST THE CONTACT INFORMATION FOR THE FOLKS YOU INTERVIEWED. Examples:
 - A\$ap Rocky, 521-111-1111, ownthemusic@gmail.com
 - Regina Spektor, 622-222-2222, reginaspek@gmail.com

TIPS FOR SUCCEEDING IN CLASS:

- Read The Austin Chronicle, The Austin American-Statesman and The New York Times. Read them every day.
- Be very familiar with city, state, national and international news.
- Study news alerts and news aggregators before every class: Google News, etc.
- BRING A PRINTOUT OF EACH STORY TO CLASS ON THE DAY THE STORY IS DUE

Grades:

Are determined by:

1. Class participation/attendance: Journalism is predicated on interaction with sources, colleagues, and editors. You will be asked to describe your work, to defend it and to comment, constructively, on the work of your colleagues. Miss 4 classes without alerting the instructor and you can be dropped down a full grade.

2. Evaluation of the stories you work on:

- A story that needs minor editing and minor additional material (facts, quotes, sources, etc.) gets an A.
- One that needs major editing or major additional reporting (**but not both**) is a B.
- A story that needs both major revision **and** major additional reporting gets a C.
- Some effort at writing or reporting gets a D.
- No serious effort at writing or reporting gets an F.
- The university grading policy allows for uses of plusses and minuses.
- A misspelled name – of a person, institution, agency – can lead to a full drop in a grade level on your story

3. Deadlines. Miss your deadline and the highest potential grade on a story can drop one grade level.

Grade Grid:

Grades will be tallied according to the following percentage guidelines:

- **Stories 1-5** are each worth **10 percent** of the final grade.
- **Story 6** is worth **30 percent** of the final grade.
- **Class exercises and participation** are worth **20 percent** of the final grade.

Office Hours and Editorial/Class/Career Consultation:

Each student must meet the professor at least twice per semester, in office hours or by appointment. Students are, of course, encouraged to meet the professor as often as they like in order to discuss internships, stories, career ambitions, etc.

Texts:

The Associated Press Stylebook – latest edition (often available in used bookstores in Austin)

Religious Policy:

The Texas Education Code specifies that an institution of higher education shall excuse a student from attending classes or other required activities, including examinations, for the observance of a religious holy day, including travel for that purpose. A student whose absence is excused under this subsection may not be penalized for that absence and shall be allowed to take an examination or complete an assignment from which the student is excused within a reasonable time after the absence. A student who misses classes or other required activities, including examinations, for the observance of a religious holy day should inform the instructor as far in advance of the absence as possible, so that arrangements can be made to complete an assignment within a reasonable time after the absence.

Students with Disabilities:

Please notify your instructor of any modification/adaptation you may require to accommodate a disability-related need. You will be requested to provide documentation to the Dean of Student's Office in order that the most appropriate accommodations can be determined. Specialized services are available on campus through Services for Students with Disabilities. Students may request appropriate academic accommodations from the Division of Diversity and Community Engagement, Services for Students with Disabilities, 471-6259.

Policy on Scholastic Dishonesty:

Do not plagiarize, make up quotes or make up facts. The University defines academic dishonesty as cheating, plagiarism, unauthorized collaboration, falsifying academic records, and any act designed to avoid participating honestly in the learning process. Scholastic dishonesty also includes, but is not limited to, providing false or misleading information to receive a postponement or an extension on a test, quiz, or other assignment, and submission of essentially the same written assignment for two courses without the prior permission of the instructor. By accepting this syllabus, you have agreed to these guidelines and must adhere to them. Scholastic dishonesty damages both the student's learning experience and readiness for the future demands of a work-career. Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including the possibility of failure in the course and/or dismissal from the University. http://deanofstudents.utexas.edu/sjs/acint_student.php.

THE UNIVERSITY HONOR CODE:

“The core values of The University of Texas at Austin are learning, discovery, freedom, leadership, individual opportunity, and responsibility. Each member of the university is expected to uphold these values through integrity, honesty, trust, fairness, and respect toward peers and community.”

Schedule (*subject to change)

Classes often begin with an “Editorial Budget Meeting” -- each of you will be asked to present WHAT YOU THINK is the “most interesting/important news story” of the day.

Please come to class conversant with the important local (Austin and Central Texas), regional (Texas and the Southwest), national and international news headlines.

Tell us HOW you will do a better, new version. Tell us how you will “advance” the story or perhaps “localize” it. Tell us where you can envision submitting the story: What publication, news site.

Labs: Will be used as time for you to work on your stories & for visits from guest speakers. It is a dedicated 3-hour time period and you have no excuse not to use it for reporting and writing.

Someone trying to address a significant problem in our society: an individual with a nonprofit organization (e.g., a food bank), a community activist (e.g., leader of a group trying to help homeless people), a pro bono lawyer (e.g., someone fighting for local environmental protections). Find someone who is doing work to provide services to specific people or is trying to address specific social justice issues. We need color and action in the story, which means we need to see people in action, doing things to address a social problem. To do this well, you will need to spend considerable time with this person and others who know the person well. Interview at least four people, including your profile subject.*

Dec. 8:

- *Do not report to classroom: Professor available in office if you need/want to confer*
- ***DUE:** Story 6*

THE REPORTER'S ROAD MAP

- 1. First: Find someone or something with inherent “news value” – a story that is different, important, singular, worth knowing, relevant to society, under-reported, new, etc.**
- 2. Second: Learn about your topic by these methods: Observe. Interview. Read/research (including the gathering of DATA).**
- 3. Third: Weigh your observations, interviews and research and decide what the Central Thesis of your story is. What is the “main” information to convey? What is the point of your story?**
- 4. Fourth: Ask yourself if you need to do more observing, interviewing, reading/research. Often a “one source” story is useless. Do you need to interview more people? Use Critical Thinking to make sure you are not being led astray – by sources that are not accurate, that have an agenda, that are covering up, etc.**
- 5. Fifth: After you are satisfied you have done enough reporting, write down the Central Thesis in one sentence. Would your best friend from high school understand it? Would most people understand it? Think of it as “the headline” of your story.**
- 6. Sixth: Begin composing your story. THINK OF YOUR INTENDED AUDIENCE. Does each sentence add information? Does each sentence hold a reader’s interest?**
- 7. Seventh: When you are done, see if your Central Thesis has been clearly presented. Prune all extraneous material. Cut any repetition. Cut quotes if they do not convey information or emotion. Is the writing always clear, compelling?**

THE REPORTER'S CHECKLIST

Are Multimedia Elements/Possibilities noted in your story proposals? [Example: "I have some good photos that can accompany this story. I also have clear audio that we can make available on the web site."]

Are you thinking about DATA? How to get it and present it?

Are you taking careful notes and using a digital recorder and/or camera?

In the first paragraph for a hard news story: If you are doing a basic hard news story, does the first paragraph convey the most important Who, What, When, Where and Why information of a story?

In the first paragraph of a news feature story: Does it grab the reader's attention? Does it set the tone and mood for the story? Does it intrigue the reader, create some sort of tension, develop a plot, etc.?

Nut Graph: If you are doing a story where you do not want to put the Who, What, When, Where & Why in your first paragraph, then will you write a so-called "nut graph" and introduce it later in your story? This is a summary paragraph explaining why you are writing this story at this time, why this story is important. Nut paragraphs, or nut graphs as they are more commonly called, are often the second, third or fourth paragraph in a typical news feature story.

Accuracy & Context: Are all the names spelled correctly? Are the numbers, dates, ages accurate? Is the story fair? Do you have adequate historical context and supporting information? Is it clear and understandable, especially to readers unfamiliar with the subject?

Organization: Is there a maintained focus throughout the story? Does it flow logically, leading the reader from one thought to the next?

Quotes: Is quote style followed? Do the quotes add new information? Do they convey emotion? Are you pulling quotes out of context? Are you using partial quotes? Are your quotes adding to the story – or are they just repeating facts?

Sources: Are there reliable sources? Do you have a diversity in sources? Are the sources appropriate for the story? Are the sources properly identified and attributed? Have you obtained the contact information for sources?

Writing: Consider these things: Word choice, clarity, conciseness; sentence construction; transition, flow; clear storytelling technique. Think about remaining on tense – either the present tense or past tense.

Your voice: Should it be in the story?

Mechanics: Grammar/spelling, AP style
