Independent Inquiry

This course carries the Independent Inquiry flag. Independent Inquiry courses are designed to engage you in the process of inquiry over the course of a semester, providing you with the opportunity for independent investigation of a question, problem, or project related to your major. You should therefore expect a substantial portion of your grade to come from the independent investigation and presentation of your own work.

Writing

This course carries the Writing Flag. Writing Flag courses are designed to give students experience with writing in an academic discipline. In this class, you can expect to write regularly during the semester, complete substantial writing projects, and receive feedback from your instructor to help you improve your writing. You will also have the opportunity to revise one or more assignments, and you may be asked to read and discuss your peers’ work. You should therefore expect a substantial portion of your grade to come from your written work. Writing Flag classes meet the Core Communications objectives of Critical Thinking, Communication, Teamwork, and Personal Responsibility, established by the Texas Higher Education Coordinating Board.
Course Description:

Students will focus on the role of investigative reporting in a democratic society, the public’s right to know, shining the light on truth. Workshop-style training will be led by the instructor with input from professional reporters and editors.

This class is offered in direct partnership with The Dallas Morning News.

A veteran investigative editor and reporter from The Dallas Morning News will be working directly with students each week.

The class will be akin to a newsroom experience – we will be working, regularly, on an ongoing investigative project.

The investigative project is intended for consideration for publication in The Dallas Morning News, Reporting Texas and/or other news venues.

Objectives/Goals:

- Think critically about what investigative journalism is.
- Grasp the mechanics of investigative stories.
- Develop and hone investigative techniques.
- Examine issues of ethics, fairness, diversity and accuracy.
- Examine “neglected” or “under reported” stories
- Have each student in the class contribute to a multi-part investigative project worthy of being published in The Dallas Morning News or other publications, including Reporting Texas.

Expected Learning Outcomes:

Students will be able to demonstrate an initial understanding of and competence in identifying enterprising investigative stories. They will be able to gather and report investigative news in an accurate, fair, comprehensive and clear manner as required to practice effectively as a professional in print or digital journalism.
**Class Format:**

Students will form reporting teams of 2 or 3 students.

Each team will work on stories that will become part of an investigative project/package.

Project/package topics will be introduced by the instructors and shaped, guided, by student input.

All stories will be overseen by the instructor and a veteran investigative editor from *The Dallas Morning News*. The goal is to produce a project that *The Dallas Morning News* or other news venues will want to publish.

**Work:**

*Each student team will submit the following:*

- One 1,500-2000-word investigative story. At least 5 sources will be quoted in the story; at least 10 sources will be interviewed.
- At least one multimedia element – photography, audio, video, Sound Slide, data visualization – must accompany the story.
- **EACH PERSON IN THE CLASS** will keep a reporter's log that is no longer than 4 typed, double-spaced pages. This is a diary/log/journal in which you chronicle – in brief descriptions – the reporting you did on the days that you worked on your story. You might list people you telephoned or emailed, documents you sought, places you visited, articles you read, etc. This is a calendar-style log of the work you have done. It will note what days you have done work and what you did on those days. The instructors will be able to tell, from the log, how much work each student has contributed over the semester. **HERE IS A MADE-UP EXAMPLE:  “Oct. 12, 2013: I met with Mike Smith, an investigator for the Lower Colorado River Authority in Austin. He gave me statistics he has been compiling on people “siphoning” water from Lady Bird Lake.”**
Grades

Will be based on:

1. Class participation: Investigative journalism is predicated on interaction with sources, colleagues, editors. Frequent participation with our guests is encouraged. You will also be asked to describe your work, defend your work and comment on the work of your colleagues. Attendance, of course, is required in class and labs. Miss four days without alerting the instructors or TA and you can drop one grade level.

2. Evaluation of the investigative story:

   - Needs minor editing and minor additional material (facts, quotes, sources, etc.), grade of A.
   - Needs major editing or major additional reporting (but not both), grade of B.
   - Needs both major revision and major additional reporting, grade of C.
   - Some effort at writing or reporting, grade of D.
   - No serious effort at writing or reporting, grade of F.
   - University policy allows use of “plus” and “minus” grades.

3. Evaluation of the reporter’s log: It must show consistent effort and an unfolding pattern of reporting and research.

4. Deadlines: Miss your deadlines and your highest potential grade can drop one grade level at each of these benchmarks: 15 minutes late, 12 hours, 24 hours.

Grade Grid:

Grades will be tallied according to the following percentage guidelines:

- Investigative story 60 percent
- Reporter’s Log 20 percent
- Class participation/lab work 20 percent

Required Texts:
The Investigative Reporter’s Handbook, latest edition

Religious Policy:
The Texas Education Code specifies that an institution of higher education shall excuse a student from attending classes or other required activities, including examinations, for the observance of a religious holy day, including travel for that purpose. A student whose absence is excused under this subsection may not be penalized for that absence and shall be allowed to take an examination or complete an assignment from which the student is excused within a reasonable time after the absence. A student who misses classes or other required activities, including examinations, for observance of a religious holy day should inform instructor as far in advance of the absence as possible, so that arrangements can be made to complete an assignment within a reasonable time after the absence.

Students with Disabilities:
Please notify your instructor of any modification/adaptation you may require to accommodate a disability-related need. You will be requested to provide documentation to the Dean of Student's Office in order that the most appropriate accommodations can be determined. Specialized services are available on campus through Services for Students with Disabilities. The University of Texas at Austin provides upon request appropriate academic accommodations for qualified students with disabilities. For more information, contact Services for Students with Disabilities at 471-6259 (voice) or 232-2937 (video phone).

**Policy on Scholastic Dishonesty:**
Do not plagiarize, make up quotes or make up facts. The University defines academic dishonesty as cheating, plagiarism, unauthorized collaboration, falsifying academic records, and any act designed to avoid participating honestly in the learning process. Scholastic dishonesty also includes, but is not limited to, providing false or misleading information to receive a postponement or an extension on a test, quiz, or other assignment, and submission of essentially the same written assignment for two courses without the prior permission of the instructor. By accepting this syllabus, you have agreed to these guidelines and must adhere to them. Scholastic dishonesty damages both the student's learning experience and readiness for the future demands of a work-career. Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including the possibility of failure in the course and/or dismissal from the University. The Standard for Academic Integrity:

The University Honor Code:

"**The core values of The University of Texas at Austin are learning, discovery, freedom, leadership, individual opportunity, and responsibility. Each member of the university is expected to uphold these values through integrity, honesty, trust, fairness, and respect toward peers and community.**"
